**Re: DRG-International – Hepcidin Patent Portfolio**

Dear Dr. Vidovich:

This firm represents DRG-International, who are the owners of 21 patents directed to diagnostic kits for the detection of hepcidin, including U.S. Patent Nos. 7,320,894; 7,411,048; 7,649,081; 7,749,713; 7,998,691; 8,003,338; 8,017,737 and 8,304,197.

Since your company is selling and offering for sale within the United States Hepcidin-25 (human) RIA and EIA kit products, my client would like to know if you are interested in a business opportunity to license its patent portfolio. My client believes that their Hepcidin kit products and patent portfolio would provide value to Peninsula Laboratories Inc.

Please contact us if your company is interested in this business opportunity. Thank you for your kind consideration in this matter.

We look forward to receiving your assurances promptly.

Very truly yours,

Gerard P. Norton
